

As a personal challenge Martin Ward from What Protect will be cycling the RideLondon 100 for the charity Children with Cancer. It's a 100 mile bike ride following the route of the Olympic Road Race.

If you can support, for any amount, however small, (and you can donate anonymously if you wish), then please visit: - <http://uk.virginmoneygiving.com/martincliveward>

Alternatively, here's an idea where you can **maybe save money and at the same time help the charity:-**

If you have a **mortgage protection policy** or you have, or need **term life cover**, get a quote online from a comparison panel of top providers by **clicking on the What Protect logo** below – it only takes two minutes - you could **potentially save money every month**, and **for every policy bought through this link £25 will be donated to Children with Cancer UK** - a real win-win – give it a try!
