

Press release.

# Property Pads

22/07/10

Property Pads is pleased to announce the launch of a new website aimed at professionals in the property industry.

The site brings together Solicitors, Conveyancers, Estate Agents and Letting Agents with a range of national and local providers of Property Searches (both personal & official), Energy Performance Certificates for residential or commercial properties, Inventories and Gas Safety Certificates.

Marketing manager Simon Godrich explained the reason for setting up the website:

***“One of the good things to come out of the introduction of HIPs was increased competition in the search market, bringing the first real reductions in search costs, in some instances the cost of a whole HIP was less than the client would have paid for the searches alone before HIPs.***

***Since the suspension of HIPs we felt it would be good to offer Solicitors and Conveyancers the chance to continue to benefit from those price reductions. We have signed up a range of local and national Search providers giving them the chance to offer their services to a wider audience at very competitive prices”.***

Clients can log in to [www.propertypads.co.uk](http://www.propertypads.co.uk) and compare prices for a range of products including Conveyancing Searches, Energy Performance Certificates, Inventories and Gas safety Certificates. More products will be added to the site in due course.

Using our case tracking system, clients are able to monitor the progress of their order and save time and money into the bargain.

The site will also benefit Estate Agents and letting agents, private sellers and Landlords, indeed anybody involved in the property industry.

For more details and a demonstration log onto to [www.propertypads.co.uk](http://www.propertypads.co.uk) and register as a client to start searching for the best deals.
